2. Amoxicillin-Clavulanate 875/125mg - Twice daily with food for 7 days

FOLLOW-UP APPOINTMENTS

- Primary Care physician - within 7-10 days for follow-up chest X-ray

ACTIVITY RESTRICTIONS

- Rest as needed; do not push yourself to return to normal activity too quickly
- Gradual return to exercise - start with short walks
- You may return to work when fever-free for 24 hours and feeling well enough

DIETARY RESTRICTIONS

- No specific dietary restrictions
- Drink plenty of fluids - helps thin mucus and aids recovery
- Avoid alcohol while taking antibiotics

GO TO THE EMERGENCY ROOM IMMEDIATELY IF YOU EXPERIENCE

- Difficulty breathing or shortness of breath at rest
- Chest pain especially when breathing in
- Coughing up blood
- Confusion or altered mental status
- Fever above 103 degrees F

CALL YOUR DOCTOR WITHIN 24 HOURS IF YOU NOTICE

- Fever above 100.4 degrees F that returns after going away
- Symptoms not improving after 48-72 hours on antibiotics
- New or worsening cough
- Wheezing or feeling of tightness in chest
