

DISCHARGE SUMMARY - SYNTHETIC PATIENT DATA (NOT REAL)

Patient: David Park

Date of Birth: 02/28/1952

Discharge Date: 2026-06-15

Admit Date: 2026-06-11

Hospital: Pulmonary Care Institute

Attending Physician: Dr. Rachel Kim

Primary Specialty: Pulmonology

DIAGNOSIS

Primary Diagnosis: Acute Exacerbation of Chronic Obstructive Pulmonary Disease (COPD)

ICD-10 Code: J44.1

MEDICATIONS AT DISCHARGE

1. Tiotropium (Spiriva) inhaler - 1 inhalation once daily (long-acting bronchodilator)
2. Albuterol (Ventolin) inhaler - 2 puffs every 4-6 hours as needed for shortness of breath
3. Fluticasone/Salmeterol (Advair) 250/50 - 1 puff twice daily (not a rescue inhaler)
4. Prednisone 40mg - Once daily for 5 days then taper as directed

FOLLOW-UP APPOINTMENTS

- Pulmonologist Dr. Kim - within 5-7 days post-discharge
- Primary Care - within 14 days
- Pulmonary rehabilitation referral - please call to schedule

ACTIVITY RESTRICTIONS

- Rest and gradually increase activity as breathing improves
- Avoid exposure to smoke, dust, fumes, and air pollution
- If prescribed home oxygen, use as directed - do not adjust flow rate yourself
- Pursed lip breathing: inhale through nose 2 counts, exhale slowly through pursed lips 4 counts

DIETARY RESTRICTIONS

- No specific dietary restrictions
- Eat smaller, more frequent meals - large meals can make breathing harder
- Stay well hydrated to help thin secretions
- Limit caffeine and alcohol

GO TO THE EMERGENCY ROOM IMMEDIATELY IF YOU EXPERIENCE

- Severe shortness of breath that does not improve with rescue inhaler
- Lips or fingernails turning blue
- Confusion or extreme agitation due to lack of oxygen
- Breathing rate very fast with inability to speak full sentences

CALL YOUR DOCTOR WITHIN 24 HOURS IF YOU NOTICE

- Increased shortness of breath compared to your usual baseline

- Change in color, amount, or thickness of sputum
- Fever above 100.4 degrees F
- Needing to use your rescue inhaler more than 4 times per day
- Swelling in ankles or legs

ADDITIONAL NOTES

SMOKING CESSATION: Quitting smoking is the single most important step.

Resources: 1-800-QUIT-NOW or ask your doctor about nicotine replacement therapy.
